ACWA
LEGISLATIVE SYMPOSIUM
 MARCH 23, 2023 • SACRAMENTO 2023

GET INFORMED. GET CONNECTED.

📍 The Sutter Club • 1220 9th Street, Sacramento, CA 95814 | 1:00 p.m. to 5:00 p.m.

TOPICS OF DISCUSSION

INFRASTRUCTURE PERMITTING

As the wets get wetter and dries get drier, we must identify opportunities to streamline the regulatory permitting process so that critical infrastructure projects are built at the pace and scale needed to prepare for climate change. This panel will discuss ACWA's sponsored bill, SB 23 (Caballero), which intends to expedite the permitting process for water supply and flood risk reduction projects.

INFRASTRUCTURE FUNDING

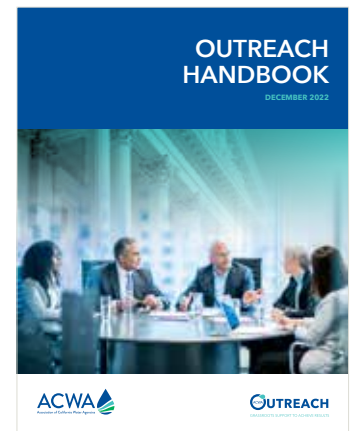

Adapting to California's changing climate will take a generational investment in water infrastructure. This not only includes creating more above and below-ground storage, but also diversifying water supplies through desalination and recycling, as well as improving flood protection and dam safety. This panel will focus on infrastructure investment, where funding might come from, and how it should be spent.

VISIT LEGISLATORS

This is the perfect time to reach out to your legislators, introduce yourself and provide some basic information about your organization and the issues that are important to you.

BE PREPARED

To prepare for the opportunity, visit findyourrep.legislature.ca.gov to find the legislators who represent your service area. Use ACWA's [Outreach Handbook](#) tips on etiquette and other issues to help make your visit successful.

NEW!

MINGLE AT THE NETWORKING RECEPTION 5:00 - 7:00 P.M.

Register at www.acwa.com by Mar. 15

ADVANTAGE PRICING* \$325

STANDARD PRICING \$485

**To be eligible for 'Advantage Pricing', you MUST be an ACWA Public Agency Member, Associate, or Affiliate*

Sponsorship Opportunities

General sponsorship opportunities are available. Please contact Joseph Ramos at josephr@acwa.com or (916) 669-2429.

Sponsorship Deadline: Mar. 10, 2023

Agenda

Tuesday, March 14

9:00 AM – 3:00 PM

Introductions

- Welcome and introductions
- Agenda review
- Norms and expectations for the Retreat

“This I Believe...”

Each member of the Board of Directors will be given an opportunity to share their "belief" about the future of the District.

Stakeholder Input Overview

Raftelis will share an overview of the stakeholder input that we have received from Board Members, the leadership team, employees, and external stakeholders. We will have subsequent discussion regarding common themes, and how they fit with what the District will need to focus on moving forward.

Vision and Strategic Outcomes

We will work to understand what the Board hopes will be true in the future and work in small groups to craft a Vision Statement for the utility.

Each person will then be asked to share their response to the following questions:

- What is true about SEWD today that you hope will **still** be true five years from now?
- What is not true about SEWD today that you hope **will** be true five years from now?

We will use the results to determine those “big buckets” of things that must go well for the District to achieve its vision and craft Directional Statements for each Outcome to describe what success will look like at the District.

Mission and Commitments

We will review the District’s existing Mission Statement to ensure that it fully captures the role and purpose of the District. We will also discuss the principles that underly how the District goes about its work on a day-to-day basis.

Next Steps

The consultants will review next steps in the process, including drafting the strategic plan and developing strategies and measures for implementation with staff.

Parting Thoughts/Adjourn

We will end the Retreat with each participant sharing a reflection about the strategic planning journey.
