4. Stockton East Water District – New Operations Building Conference Room Memo, 12/29/20 Manager Moody provided the Board with information on the Operations Building Conference Room. Manager Moody reported an updated handout of the memo was provided to the Board. Manager Moody reported the water quality lab's certification has lapsed due to the increasing regulations and costs; and, the lab wasn't used much to warrant keeping its certification. Manager Moody reported staff is recommending to demolish the back of the lab and turn it into a conference room space. Currently, the only meeting space in the operations building that is big enough to facilitate meetings is in the Engineering room area which is a wide-open space directly next to the engineering staff.

Manager Moody commented the updated handout has a total cost in the amount of \$10,000. There was a decrease in improvements and technology and conveyed the new total amount might be high but is a safe number. Manager Moody reported the demolition includes removing cabinets; laying down carpet; purchasing tables & chairs and doing some basic drywall work. Manager Moody added all work will be performed in-house and when there's inclement weather.

Director Panizza commented having no problem with opening up the space to make a conference room and that the total amount of \$10,000 is not an unreasonable top amount. Director Atkins agreed with Director Panizza and added the only item he questions is addition of carpet-considering people coming in from the outside and suggested the option of linoleum instead. Manager moody replied staff will look into this option.

A motion was moved and seconded to approve the Operations Building Conference Room demolition and construction in the amount of \$10,000. <u>Roll Call</u>:

Ayes: Atkins, Cortopassi, McGaughey, McGurk, Panizza, Sanguinetti, Watkins

Nayes:NoneAbstain:NoneAbsent:None

Director McGaughey advised having just received the today's agenda packet via the District's On-Trac courier service. Manager Moody advised staff will be using another courier service who will guarantee same day service.

5. Stockton East Water District – Emission Reduction Credits Sale Memo, 12/29/20 Manager Moody provided the Board with information on the Emission Reduction Credits Sale. Manager Moody reported the District was contacted by Element Markets to purchase the District's Emission Reduction Credits (ERCs). Manager Moody reported the emergency standby generators are exempt from emission credit requirements. Director Sanguinetti commented if the District needed the ERCs in the future, purchasing could be costly and the District does not need the money from selling them now. Director Watkins commented on having a benchmark on what the ERCs are worth today. Manager Moody commented on filing this information in the San Joaquin Valley Air Pollution Control District file for reference.

Director Cortopassi commented on having to rent equipment such as dump trucks and why the District isn't able to use the ERCs for our own equipment. Manager Moody replied the ERCs only apply to stationary equipment, noting the dump-truck is considered over the road equipment and has an annual maximum use of 100 hours/1,000 miles.

No action was taken on this item.

F. REPORT OF GENERAL MANAGER

1. Water Supply Report as of 12/21/20

Manager Moody provided a handout of the Water Supply Report for information only that included storage, release, and production data collected from various sources as of midnight last night.

There is 132,874 AF in storage at New Hogan Reservoir. Current releases are set at 28 cfs. There is 1,544,254 AF in storage at New Melones Reservoir. Current release at Goodwin Dam to Stanislaus River are set at 205 cfs and release to all water users are set at 42 cfs. The water treatment plant is currently processing 16 mgd. The City of Stockton is currently processing 12 mgd.

Director Cortopassi inquired on the releases at New Hogan Reservoir and if the U.S. Army Corps of Engineers (USACE) has any plans on making any large releases from the Reservoir. Manager Moody replied currently being under the Top-of-Conservation (TOC) at New Hogan Reservoir by ~20,000 AF and the only releases from the Reservoir should be directed by SEWD.

2. Information Items: Manager Moody noted items: F2a-1 and F2a-2.

Re:	Potter Creek Aerial Lidar Survey Budgetary Quote

BACKGROUND

At the December 3, 2020, Agricultural Operations Committee (Committee) meeting, the Committee requested that staff look into surveying a 5-mile section of Potter Creek from Fine Road to the Mormon Slough. The cost to perform a standard ground survey with cross sections every 100 feet would be expensive (\$57,000 estimate), so staff requested a budgetary quote to use a drone and perform an aerial Light Detection and Ranging (LiDAR) survey. An aerial LiDAR survey can be accomplished in minimal time and provides a complete picture of the existing topo as it can provide an accurate survey even with thicker ground cover; unlike GPS enabled survey units. Using special equipment mounted to a drone, a high resolution digital elevation model (DEM) can be created, like the U.S. Geological Survey image shown below as Figure 1. Through software processing, the DEM can be developed into a traditional topographic survey.

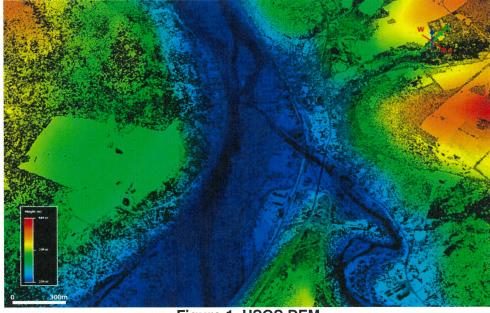

Figure 1. USGS DEM

FINDINGS

Staff received a budgetary quote from GIS Surveyors, Inc. (GSI), the same company that performed a LiDAR survey to prepare a proposal to permanently repair the ground sliding issues on the Upper Farmington Canal near Church Springs Road. The budgetary cost with contingency is around \$24,000. This would include providing the District with an accurate topographic map of Potter Creek in CAD and PDF.

RECOMMENDATIONS

District staff recommends the Board authorize staff to proceed with a LiDAR survey of Potter Creek after receiving firm quotes from GSI and two other companies that have proficiency in aerial LiDAR surveying. Staff further recommends the Board authorize the General Manager to approve the aerial LiDAR survey of Potter Creek in accordance with the District's purchasing policy. Funding for the work is available in the Engineering budget.
