THE REGULAR MEETING OF THE BOARD OF DIRECTORS
OF STOCKTON EAST WATER DISTRICT WAS HELD AT THE DISTRICT OFFICE
6767 EAST MAIN STREET, STOCKTON, CA
ON TUESDAY, OCTOBER 5, 2021 AT 12:30 P.M.

A. PLEDGE OF ALLEGIANCE AND ROLL CALL

President Watkins called the regular meeting to order at 12:30 p.m. and Manager Moody led the Pledge of Allegiance.

Present at roll call at the District were Directors Atkins, McGaughey, McGurk and Watkins. Also present were Manager Moody, Assistant Manager Hopkins, Finance Director Vega, District Engineer Evensen, Administrative Clerk Feliciano and Legal Counsel Zolezzi. Present at roll call via teleconference was Director Panizza. Director Sanguinetti joined via teleconference at 12:38 p.m. Director Cortopassi was absent. Also present via teleconference was Consultant Barkett.

B. CONSENT CALENDAR (None)

C. PUBLIC COMMENT (None)

D. SCHEDULED PRESENTATIONS AND AGENDA ITEMS

1. Action Item: Stockton East Water District Board of Directors
Reconsidered the Circumstances of the State of Emergency and
Determine that

- (i) The State of Emergency continues to directly impact the ability of the members to meet safely in person and/or
- (ii) State or Local Officials continue to impose or recommend measures to promote social distancing.

Manager Moody presented the Board of Directors with the Action Item regarding Assembly Bill 361 Open Meetings: State and Local Agencies: Teleconferences as approved by the Governor on September 16, 2021. Manager Moody explained the Action Item will be added to the agenda every thirty days on the first meeting of the month for the Board of Directors to approve sections (i) and (ii).

Director McGurk inquired if this is only for the state of California. Manager Moody replied yes. Manager Moody added it creates an issue for entities that do not meet monthly; according to Assembly Bill 361, after the first meeting in October to establish the State of Emergency, the entity must recertify every thirty days.

President Watkins suggested the District contact Association of California Water Agencies (ACWA) to push to make it permanent. Legal Counsel Zolezzi commented the state of emergency has to be present and is a temporary Bill expiring in 2022.

A motion was moved and seconded to approve the Action Item: Stockton East Water District Board of Directors Reconsidered the Circumstances of the State of Emergency and Determine that (i) The State of Emergency continues to directly impact the ability of the members to meet safely in person and/or (ii) State or Local Officials continue to impose or recommend measures to promote social distancing, as presented.

Roll Call:

Ayes: Atkins, McGaughey, McGurk, Panizza, Watkins

Nays: None

Board Meeting – 10/05/21

1

Draft

Abstain: None
Absent: Cortopassi, Sanguinetti

2. Minutes 09/28/21 Regular Meeting

A motion was moved and seconded to approve the September 28, 2021 Regular Board Meeting Minutes, as amended.

Roll Call:

Ayes: Atkins, McGaughey, McGurk, Panizza, Watkins
Nays: None
Abstain: None
Absent: Cortopassi, Sanguinetti

3. Warrants – California Public Employees’ Retirement System

A motion was moved and seconded to approve the September 28, 2021 Warrants, as presented.

Roll Call:

Ayes: Atkins, McGaughey, McGurk, Panizza, Watkins
Nays: None
Abstain: None
Absent: Cortopassi, Sanguinetti

4. Dr. Joe Waidhofer Drinking Water Treatment Plant – Electrical Motor Control Center Replacement (MCC-2M System) Project Memo, 10/05/21

Assistant Manager Hopkins reported this fiscal year Staff budgeted to replace the MCC-2M which powers the sedimentation basin and flocculators. Assistant Manager Hopkins reported the District published a Request for Proposals (RFP) in an effort to acquire an electrical engineer to perform the design work ahead of the construction work; seven firms were contacted directly and the RFP was published on the District’s website, only one proposal was received from JSP Automation. Assistant Manager Hopkins added JSP Automation’s proposal cost for design was \$31,300; Staff requested the Board of Directors approve the execution of a professional services agreement with JSP Automation for the proposal cost plus a 10% contingency, for a total amount of \$34,430.

President Watkins inquired if this is on the original sedimentation basin and not the newly constructed sedimentation basin. Manager Moody replied it controls both.

Director McGurk inquired if the design is preliminary according to the summary in the memo. District Engineer Evensen replied there are phases; preliminary, 50% and 90%; the cost is for the complete design. Director McGurk inquired how many engineers will be assigned to this project. District Engineer Evensen replied there are at least two electrical engineers.

Director Atkins inquired if there are more companies or if JSP Automation usually does this type of work for the District. Assistant Manager Hopkins replied JSP Automation has worked for the District in the past and they are eager to do more work for us; the request for proposals was sent out to other companies but the issue is most companies are holding out for bigger more costly projects.

President Watkins inquired if Staff is happy with the past work JSP Automation has done for us. District Engineer Evensen replied yes.

A motion was moved and seconded to award a Professional Services Agreement with JSP Automation to replace the Electrical Motor Control Center (MCC-2M) in the amount of \$31,300 plus a 10% contingency, in a total amount of \$34,430, as presented.

Roll Call:

Ayes: Atkins, McGaughey, McGurk, Panizza, Sanguinetti, Watkins
Nays: None
Abstain: None
Absent: Cortopassi

5. Stockton East Water District – Tunnel Outlet Flow Measuring Flume Project Memo, 10/05/21
Manager Moody reported the Board of Directors approved publishing a Request for Bids (RFB) for the Tunnel Outlet Flow Measuring Flume Project, the results were not favorable; the project was budgeted for \$364,000 and the single bid submitted was for \$1.475 million. Manager Moody explained the reason for the high bid was due to the tight timeframe to complete the project with the shutdown of New Melones and the hike in the cost for materials.

Director McGaughey inquired if the District can legally go out to bid for the same project again in the future. Manager Moody replied yes, we are recommending we reject the all bids and publish an RFB at a later date when the timeframe is longer and hopefully the cost of materials have gone down. Manager Moody added Staff and Committees will have to meet to fit the project into the budget and reevaluate the cost it takes to complete the project.

Director McGurk inquired if the project has to get done in the next year or if it can wait two to three years. Manager Moody replied the contract with Tri-Dam requires we accurately measure the water coming out of the tunnel and it is currently being measured inaccurately; it is inaccurate as much as 30%. Manager Moody commented this project was planned to accurately measure the water but other more cost-effective options can be researched to avoid putting in a concrete or metal flume.

Director Panizza inquired if the design and estimate has been done for this project. Assistant Manager Hopkins replied Cal Poly ITRC created a preliminary design and Staff estimated the cost based on the cost of materials in July 2020. District Engineer Evensen reported steel has gone up 36% since July 2020 and the contractor marked up the cost of concrete four times what it should be.

Director Atkins inquired if there was a meter at the tunnel inlet. Manager Moody replied there may have been one a long time ago. Director Atkins inquired if a meter could be placed there to rectify the inaccurate measurement of water. Assistant Manager Hopkins explained the inlet does not flow full and a meter would be inaccurate. President Watkins added there is not an easy access in that area to maintain a meter.

A motion was moved and seconded to reject all bids submitted for the Stockton East Water District – Tunnel Outlet Flow Measuring Flume Project, as presented.

Roll Call:

Ayes: Atkins, McGaughey, McGurk, Panizza, Sanguinetti, Watkins
Nays: None
Abstain: None
Absent: Cortopassi

6. Stockton East Water District – 2021 Dam Removal Temp Labor Memo, 10/05/21
Manager Moody reported the San Joaquin County Sheriff Department Community Corps service is not available to help with dam removal this year due to COVID-19 restrictions. Manager Moody reported farm labor will be the most cost-effective to hire temporary labor to remove the dams as well as use construction staff to get the work done in time. Manager Moody explained Staff reached out to three companies for temporary labor and farm labor is the most cost-effective in comparison to the other two with a total cost of \$11,760.

Director Atkins inquired if other vendors were contacted. Manager Moody replied Chris contacted other vendors but it is a difficult time of year to acquire farm labor but Chris found a contact that can provide him with laborers. This item was for information only.

E. COMMITTEE REPORTS (None)

1. San Joaquin Farm Bureau Federation – Water Committee Meeting, 09/28/21
Directors Sanguinetti, Watkins and Manager Moody attended the September 28, 2021 San Joaquin Farm Bureau Federation – Water Committee Meeting. Manager Moody reported the meeting was virtual for everyone but a few committee members participated in person. Manager Moody reported discussion on district reports to share status on each district; Dante discussed litigation and the remaining district discussed ending irrigation season and harvest. Manager Moody reported discussion on the Sustainable Groundwater Management Act (SGMA) and where all the districts are in that process and emergency curtailment and responding to the State Board’s letter. President Watkins commented the list of those that have not responded were around 3,000 and included some districts. The next meeting is scheduled for October 26, 2021.
2. Eastern San Joaquin Groundwater Authority Joint Exercise of Powers Authority – Special Board Meeting, 09/30/21
Director Panizza and Manager Moody attended the September 30, 2021 Eastern San Joaquin Groundwater Authority Joint Exercise of Powers Authority – Special Board Meeting. Director Panizza reported discussion on Assembly Bill 361 Open Meetings: State and Local Agencies: Teleconferences and a presentation from Neumiller & Beardslee. Director Panizza reported Neumiller & Beardslee expressed their thoughts about AB 361 being poorly written and confusing and did not consider all entity’s meeting schedules. The Eastern San Joaquin Groundwater Authority Joint Exercise of Powers Authority Board decided not to act on Assembly Bill 361 and will revisit the topic at their next meeting. Manager Moody added Neumiller & Beardslee thought all standing committees of the regulatory agencies would have to do these findings every thirty days if they meet by teleconference. The next meeting is scheduled December 8, 2021.

F. REPORT OF GENERAL MANAGER

1. Water Supply Report as of 09/27/21
Manager Moody provided a handout of the Water Supply Report for information only that included storage, release, and production data collected from various sources as of midnight last night.

There is 88,145 AF in storage at New Hogan Reservoir. Current releases are set at 15 cfs. Current release at Goodwin Dam to Stanislaus River are set at 201 cfs and release to all water users are set at 70 cfs. There are 3 irrigator(s) on New Hogan and 0 irrigator(s) on New

Melones. There are currently no Out-of-District irrigator(s). The water treatment plant is currently processing 27 mgd. The City of Stockton is currently processing 22 mgd.

2. Information Items: (None)

3. Report on General Manager Activities

a. Stockton East Water District Activities Update

Manager Moody queried the Board as to who would like to attend the Annual San Joaquin County Agricultural Hall of Fame Dinner. Directors McGurk, Sanguinetti and Watkins will attend.

Manager Moody reported he received a call from the District's regulator at Division of Drinking Water, Bhupinder Sahota to discuss draconian cuts for curtailment and mandatory water reduction; he was interested if the District had acknowledged the curtailment, where we got our water from and if we were affecting the Delta. Manager Moody reported Bhupinder Sahota was pleasantly surprised to learn the District is diverting from storage. Manager Moody added the Division of Drinking Water is checking on all their systems will be negatively affected soon but hopefully not for us.

Director McGurk inquired if the call was concerning water retailers and what will be done after the water is treated. Manager Moody replied the call was made because he knows more than the District knows about what the Governor is going to do with curtailments and mandatory conservation and he is making his calls to make sure we can respond should we get curtailed. Manager Moody reported he told Bhupinder Sahota depending on what this winter brings; the District is fairly close between Ag and M&I to having a normal year if we get a couple days of rain; M&I will definitely have water next year.

Director McGurk inquired what the plans are for the State. Manager Moody replied he did not elaborate on that. Director McGurk inquired why eight counties were not declared as in an emergency drought. Manager Moody replied those counties are down south; the ACWA President during a call about the water year said their reservoirs are all full.

G. DIRECTOR REPORTS (None)

H. COMMUNICATIONS

1. Greater Stockton Chamber of Commerce – 2021 Meet Your Chamber Leaders Dinner Thank You, 09/22/21

Manager Moody provided the Board with Thank You correspondence from the Greater Stockton Chamber of Commerce regarding the 2021 Meet Your Chamber Leaders Dinner.

2. Greater Stockton Chamber of Commerce – 36th Annual San Joaquin County Agricultural Hall of Fame Thank You, 09/22/21

Manager Moody provided the Board with Thank You correspondence from the Greater Stockton Chamber of Commerce regarding the 36th Annual San Joaquin County Agricultural Hall of Fame.

I. AGENDA PLANNING/UPCOMING EVENTS

1. Eastern San Joaquin Groundwater Authority Ad-Hoc Technical Advisory Committee (TAC) Meeting, 9:30 a.m., 10/06/21

2. ACWA Agriculture Committee Meeting, 1:00 p.m., 10/07/21
3. Eastern San Joaquin Groundwater Authority – Selection Committee Meeting, 2:00 p.m., 10/08/21
4. District Holiday – Columbus Day, 10/11/21
5. San Joaquin County & Delta Water Quality Coalition Meeting, 9:00 a.m., 10/11/21

J. REPORT OF THE COUNSEL

1. Closed Session - Potential Litigation
Government Code 54956.9 (c) – one case

President Watkins adjourned the meeting to closed session at 1:03 p.m. to discuss closed session agenda items. District staff, with the exception to Manager Moody and Assistant Manager Hopkins were excused from the closed session meeting at 1:04 p.m. The regular meeting reconvened at 1:14 p.m., with no reportable action.

K. ADJOURNMENT

President Watkins adjourned the meeting at 1:15 p.m.

Respectfully submitted,

Scot A. Moody
Secretary of the Board

Re: WB1, WB2, and DB1 SCADA Project

BACKGROUND

As a part of the Stockton East Water District's (District) FY21-22 budget, the Board of Directors (Board) approved funding for the WB1, WB2, and DB1 SCADA Project (Project) at the Water Treatment Plant (WTP). The Project consists of replacing the 208V power with standard 480V, and automating the existing WB1 and WB2 gates. All three gates are in the DB1 vault located between the East Pond and the Intake Pond. There are two 36 inch (WB1 and DB1) and one 24 inch (WB2) existing Waterman Sluice gates. WB1 gate feeds water from East Pond to North Percolation Pond. WB2 feeds water from East Pond to South Percolation Pond.

The 208V existing power is an outlier at the plant and is not used anywhere else. The District is standardizing with 460V/3P. By standardizing power, equipment can be used interchangeably and having spare parts would benefit against extended shutdowns. In addition, the District will install a fiber run to connect to the Districts SCADA system. Since there has been frequent radio communication failures, the fiber run will allow more reliability and higher bandwidths for existing equipment including pond levels and flow meters.

SUMMARY

MRC Global provided a proposal for three Limatorque 460V/3P actuators for WB1, WB2, and DB1 gates. The District recently used MRC Global for the addition of Limatorque electric actuators for the Vault Structure 3 Automation Project.

The budget for the WB1, WB2, and DB1 SCADA Project equipment, installation, and SCADA programming is \$94,700 and the proposal for the three actuators received has a total cost of \$30,091.38, including tax and delivery.

RECOMMENDATIONS

District staff recommends proceeding with MRC Global proposal for the three Limatorque actuators for \$30,091.38, plus a 10% contingency, for a total approved amount of \$33,101.

Memorandum

TO: Scot A. Moody – General Manager
FROM: Justin Hopkins – Assistant General Manager
DATE: October 12, 2021
RE: SJAFCA Memorandum of Understanding – Update

BACKGROUND

At the September 7, 2021, Stockton East Water District (District) regular Board of Directors (Board) meeting, District staff discussed the draft terms for a Memorandum of Understanding (MOU) between the District, the San Joaquin Area Flood Control Agency (SJAFCA) and the U.S. Army Corps of Engineers (USACE); collectively Government. The Board provided staff with direction and staff has continued working with the Government on MOU updates, project scope development, and coordination.

SUMMARY

The current draft agreement has incorporated the comments and direction received by the Board during the September 7th meeting. Key elements of the revised MOU include:

- Adding the California Department of Water Resources (DWR) as a signatory. DWR will be paying the District for the first phase of excavated borrow material.
- \$2/cubic yard compensation for excavated material.
- A 90-day written notice termination clause.
- Contractor requirements for access, work hours, and security.
- Reorganization of the phasing plan to accommodate tenant activities.
- Relocation of the excavation area to comply with the U.S. Army Corps of Engineers' 400-foot excavation setback from levees.

NEXT STEPS

The current draft agreement will be subject to further revision until the Government's soil tests are conclusive. The soil samples taken August 12-13 from the perimeter of the site and the sludge piles are still being processed. The Government is tentatively scheduled to collect the remaining soil suitability samples beginning October 26, however the work may require postponement to November 5 depending on harvest of the existing crop. All soil testing results are not anticipated until January.

The Government will be further revising the MOU and phasing plan to reflect recent borrow material quantity changes. The Government now requires approximately 144,000 cubic

yards of borrow material for the first phase instead of the 66,000 cubic yards initially estimated. The increased borrow material need will result in excavation of phase 1 and 2, shown in Figure 1, during 2022. The total area excavated for the first phase of the Government’s project is approximately 10 acres.

Re: Reclamation Reform Act (RRA) Close-Out

Background:

*In response to a lawsuit against the Federal government in the 1970's alleging improper acreage limitation administration, Congress passed Public Law 97-293, which President Reagan signed into law on October 12, 1982 – Title II of Public Law 97-293 is known as the Reclamation Reform Act of 1982 (RRA). The Act limits the total of owned and/or leased land that can be irrigated by a landholder. A landholder is a person, persons or entity that can own or lease ground directly or indirectly in a Reclamation project. Landholders who are subject to the Discretionary Provisions (New Law) are entitled to 960 irrigable class one equivalent acres. Reporting thresholds for landowners in Stockton East Water District was 240 acres of owned land.

*The 2016 Water Infrastructure Improvements for the Nation Act (WIIN Act) allowed for the conversion of water service contracts to repayment contracts upon a contractor's request and prepayment of its outstanding CVP construction costs.

*Contractors that fully prepay their construction obligation under the WIIN Act conversion provisions will no longer be subject to requirements of the RRA, once full payout is verified and approved by the Bureau of Reclamation.

*In 2019 the District requested contract conversion for its New Melones contract under the WIIN Act and paid its CVP construction costs in 2020.

Update:

Near the end of 2020 Staff asked its designated USBR RRA coordinator to review the District's WIIN Act conversion and subsequent exemption from RRA requirements. The coordinator stated she would check and call the District back in a few weeks. The coordinator did not reach out. When District staff tried to reach out again, USBR staff had been unavailable, possibly due to the uptick in COVID-19 cases that happened around that time.

Unsure about the status, District staff continued to comply with RRA rules for 2021 until confirmation of exemption could be obtained. District staff again, recently, reached out to the RRA coordinator and she responded with the attached final RRA review; she ascertained this will close out the District requirements under the RRA and the District will receive an exemption letter stating so.

STOCKTON-EAST WATER DISTRICT REVIEW REPORT

District name:	Stockton-East Water District	
Date of review:	December 7, 2020	
Review purpose:	<input type="checkbox"/> Regularly scheduled 5-year review <input type="checkbox"/> Block payout review – Block(s): <input checked="" type="checkbox"/> Final water district review (for RRA exemption) If payout, expected date of final payment: If legislative, name of legislation: WIIN Act	
Review team: (* team lead)	*Angela Munson	
	2019	Date of first water delivery: March 1
District staff:	Mr. Scott Moody, Mgr. / Mr. Juan Vega RRA POC	
Year of next review:	Final RRA Review	

DISTRICT LANDHOLDER INFORMATION

Total in district:	6,589
Above forms threshold:	5
Over 960 acres:	0
Hold full-cost land:	0
Own excess land:	0

FEEDBACK AND RECOMMENDATIONS:

Results and corrective actions from this review are detailed on the compliance review sheets for each reviewed landholder, and in Attachment 1 (Summary of Review Findings).

Stockton-East Water District has identified a WIIN Act lump-sum payout in water year 2020. The construction cost obligation has been paid on contract 4-07-20-W0329.

The District’s last RRA review was held in 2019 resulting in the following: discovery that during the District’s Contract Compliance Review (CCR), conducted by Reclamations Water Contracts branch, which took place on August 29, 2018, the District placed project water on landholdings outside of the District’s water service area. The District stated they requested an inclusion to their water service contract to include these landholders, and provided a letter stating that they are requesting assistance from Reclamation in this process (see attached), however through correspondence research, RRA Staff has identified that the District has decided not to follow through with the inclusion process. The District identified it’s understanding that project water is for beneficial use only within the definition of their contract and is not to be placed on ineligible lands. Due to this being a contract issue, RRA Staff is identifying the situation as a serious concern and will maintain communication with the Water Contracts branch to ensure ineligible lands are not receiving project water.

This review constitutes the final RRA Review due to Legislative exemption through the WIIN Act payout in water year 2020.

Re: 2021 Dam Removal Temp Labor – Update

BACKGROUND

At the October 5, 2021, Stockton East Water District (District) Board of Directors (Board) meeting, staff presented the Board with dam removal labor issues and reviewed alternatives for temporary labor. Staff previously informed the Board the San Joaquin County Sheriff's inmate labor program is impacted by COVID-19 and inmate labor cannot be relied upon for dam removal. As recommended at the last Board meeting, staff is working with a farm labor contractor to secure five temporary workers for 14 days. The estimated cost for the temporary labor was \$11,760, more than a \$3,000 increase from the Sheriff's inmate labor program

SUMMARY

Since the last Board meeting staff has continued to work with the farm labor contractor to establish the contractor as a District vendor and to execute a service contract. The farm labor contractor has not previously performed government work and was not setup to meet California's prevailing wage reporting requirements. The time frame provided by the farm labor contractor to qualify for public work was in excess of a week and labor cannot be provided until prevailing wage requirements are met and a contract executed.

District staff were required to begin removal of the 8-foot Bellota Weir and installation of the 2-foot Bellota weir prior to receiving any temporary labor support. To accomplish the work, the District's Water Supply Operations Supervisor relied on support from another Water Supply Supervisor, one Water Supply Operator, two Electrical Technicians, one Water Treatment Plant Operator, and the temporary worker that maintains the water treatment plant grounds. The other five Water Supply staff were unavailable due to the Gotelli Bridge Project and meter reads for the District's Enhanced Water Rights Reporting to the State Water Resources Control Board. From use of the Electrical Technicians for dam removal, the Maintenance Department was required to defer preventative maintenance activities. The water treatment plant operations were not impacted, but the Water Treatment Plant Operator would be unable to support dam removal efforts if any of the Water Operations staff were out.

In an effort to expedite the support of temporary labor, staff reached out to Balance Staffing to request five temporary workers. The labor rate for Balance Staffing is \$7 per hour greater than the cost of the farm labor, resulting in an updated temporary labor cost estimate of \$13,440. The updated cost is a \$5,000 increase from the Sheriff's inmate labor program.

TECHNICAL ADVISORY COMMITTEE MEETING

AGENDA

Wednesday, October 6, 2021

9:30 a.m. – 11:00 a.m.

Call-In Information Provided Below

Note to participants: Members of the public, most staff and other GSA/GWA persons may participate via the teleconference line only. Thank you for your understanding.

Call to Order/Roll Call

A. Discussion/Action Items

1. September 2, 2021 meeting notes ([Attached](#))
2. Preliminary historical model results
3. Basin Accounting Framework- next steps, issues to address
4. FiroMAR DWR Pilot Project
5. Grants
 - a. [DWR GSP Implementation Round 2](#) (\$77M) – process for selection
 - b. Floodplain Management, Protection and Risk Awareness (FMPRA) Grant Program [Final Guidelines and Grant Proposal Solicitation Package \(PSP\)](#).
 - a. [California Financing Coordinating Committee \(CFCC\)](#) is pleased to invite you to attend a free virtual funding fair on October 21 and 28, 2021. [California Financing Coordinating Committee \(CFCC\)](#)

A. Information Items (10 min)

1. Staff Topics and Updates
2. DWR update
3. Member topics or updates
4. Media clippings
 - a. [Improving California's Water Market How Water Trading and Banking Can Support Groundwater Management](#) (PPIC)
 - b. [Groundwater and Urban Growth in the San Joaquin Valley](#) (PPIC)

B. Next Meeting: November 4, 2021 at 9:30 AM.

C. Adjournment

Agriculture Committee Meeting		
October 7, 2021 • 1pm – 3:30pm	Location: Virtual (Meeting Link Below)	
Chair: Bill Diedrich	Vice Chair: Alex Biering	Staff Liaison: Ivy Brittain ivyb@acwa.com
Register before the meeting to receive a login link: https://acwa.zoom.us/meeting/register/tZl5fu6upj8qHNGyg8YIyt8SOPudGe8WSLjQ		

I. Welcome & Introductions	Bill Diedrich, Chair Alex Biering, Vice Chair
ACWA UPDATES	
II. ACWA Updates	Cindy Tuck, Deputy Executive Director of Government Relations, ACWA
III. ACWA Federal Relations Update	David Reynolds, Director of Federal Relations, ACWA
INFORMATIONAL ITEMS & DISCUSSION	
IV. State Drought Update	Karla Nemeth, Director, California Department of Water Resources
V. San Joaquin Valley Water Collaborative Action Program	Tim Quinn, Stanford University
VI. California Department of Food and Agriculture's State Water Efficiency and Enhancement Program (SWEET) and Healthy Soils Programs	Carolyn Cook, Senior Environmental Scientist, CDFA Amrith Gunasekara, Science Advisor to Secretary Karen Ross, CDFA
REGIONAL UPDATES	
VII. Regional Agriculture Issues Updates - Imperial Valley (Region 9)	Tina Shields, Water Department Manager, Imperial Irrigation District
VIII. Northern California Water Association Update	Todd Manley, Director of Government Relations, Northern California Water Association
IX. Closing	Bill Diedrich, Chair

Next Meeting: ACWA Fall Conference: Tuesday, November 30 from 8—9:45 AM (in-person or conference call only)
