Manager Moody replied this is for the actual water for the 2015 water year. Finance Director Naray reported the invoice amount reflects a higher price for water than in the past because the USBR increased costs for O&M & the amount of less CVP Contractors using water due to the drought condition resulting in the invoice.

Director Cortopassi inquired on the expense on page 10, line 27 for Telepacific Communications for October 2016 telephone charges for SEWD in the amount of \$2,749.24. Manager Moody reported this is a monthly expense for the District's phone & internet services.

3. Stockton East Water District Agricultural Operations Committee – November 10, 2016 Draft Meeting Agenda

Manager Moody provided the Board with a draft Meeting Agenda for the Stockton East Water District Agricultural Operations Committee scheduled for November 10, 2016. Manager Moody reported this item serves as a reminder to the Committee members of the upcoming meeting & approval of the items as presented on the Agenda. Director McGurk inquired if this venue would be appropriate to discuss the potential to hold a meeting with growers regarding Sustainable Groundwater Management Act (SGMA). Director Cortopassi whom is the Ag Ops Committee Chairperson advised this item would be added under "Agenda Planning" for discussion. Manager Moody advised staff will edit the Agenda to include this discussion item and post/distribute as usual.

4. Solids Removal Project Update

Manager Moody provided the Board with an update on the Solids Removal Project. Manager Moody reported staff is requesting feedback from the Board directing how to proceed with this Project.

Director Cortopassi asked staff to contact Kjeldson, Sinnock and Neudeck (KSN) to see if they could use the materials. District Engineer Lee replied Kleinfelder stated the material must be certified, which would leave the District liable if the materials were to fail.

Director Watkins stated the solids should be left where they are and we should continue to add more solid material as necessary.

Director Panizza commented the classification of the solids makes the material a potential liability to keep onsite; by leaving the material on District property keeps the liability onsite longer. Director Panizza recommended hiring a Contractor to complete removal. President Sanguinetti agreed, stating it would be best to have a Contractor complete the Project versus in-house and will also keep the liability away from the District.

President Sanguinetti inquired if this cost for removal is budgeted. Manager Moody replied yes.

Manager Moody reported staff researched past practices of other Agencies and staff recommendation was based on research findings.

Director Cortopassi inquired if there is an agency requiring the District to move the solids. Manager Moody replied no. President Sanguinetti replied the Solids Removal Project should be put on hold until other projects are completed.

5. Stockton East Water District – Crane Operator & Qualified Rigger Signalperson Certified Training Update

Director Watkins commented the District does not support the changing the standard; but, once changed we support the standard. Legal Counsel Zolezzi agreed it is not in our best interest to agree with the change, but will support the standard once in place.

Director Atkins inquired on the United States Bureau of Reclamation (USBR) being the only responsible water right holder. Legal Counsel Zolezzi replied today only the USBR has its Permit conditioned to meet the flow objective.
